20 Years Porsche Tequipment
Accessories for your Cayenne

To check out the sound of the sports exhaust system, please click on image

An established part of our programme for 20 years: driving pleasure retrofitted.

A Porsche stands for enjoyment at the wheel, sports car emotions, unmistakable design and, of course, impressive performance. As well as your idea of how this should be expressed. Visually, tangibly and audibly. In short: how it can best fit in with you and your activities – 365 days a year.

This is what Porsche Tequipment has been offering for 20 years with its high-quality

products. Helping to turn a sports car into a sports car that is specifically adapted to your life. Whatever your plans.

Right from the start, Porsche Tequipment products have to meet the same standards as our vehicles: developed, tested and inspected in Weissach. By the same Porsche engineers and designers responsible for creating each model.

Conceived with the complete vehicle in mind and tailored to your particular Porsche. The result: a range of exceptional products with which you can refine your Porsche to suit your own individual requirements. Fitted after delivery. With no fuss. And, above all, with typical Porsche quality.

With your Porsche, you've already made your dream come true. Now it's time to live it. You will find the relevant accessories from Porsche Tequipment on the following pages.

Sports exhaust system

More visual appeal or more sound? You can have both. Thanks to the sports exhaust system featuring twin dual-tube tailpipes in chrome-plated stainless steel, for enhanced Porsche sound and distinctive styling. The sound of your Cayenne changes according to your driving behaviour – from a robust

output during normal road driving to a distinctively more aggressive tone during performance use. The sports exhaust system is activated using the SPORT button.

SportDesign package

SportDesign package

Stainless steel skid plate (front)

Stainless steel skid plate (rear)

SportDesign package

A well-trained athlete is distinguished by a powerful appearance. The SportDesign package underlines the dynamic character of your Cayenne. It comprises the following components available in exterior colour: an extended rear spoiler with fixed bi-plane wing profile, side skirts and a

front and rear apron. Components that have been aerodynamically refined in the Porsche wind tunnel and visibly lower the vehicle. The result: greater dynamics – and presence.

Stainless steel skid plate (front)

The front skid plate in stainless steel makes your Cayenne look even more individual. Its colour has been carefully selected to complement the metallic features of the Cayenne and installation does not affect the vehicle's approach angle.

Stainless steel skid plate (rear)

The rear skid plate in stainless steel ensures a sportier look to the rear of your Cayenne, especially in conjunction with the front skid plate in stainless steel. The integrated longitudinal grooves also underline the car's purposeful stance.
